- ▶ Small footprint, high return on investment

Kodak Picture Maker is the world's most popular self-service photo kiosk and includes the features consumers want most. Features like zoom, crop, rotate, red-eye reduction, color correction, sepia, and black and white are all there. Touch-screen technology makes it very easy for your customers to use. There's also extras like enlargements, borders, greeting cards, photo IDs, calendars and much more to spur impulse purchases.

Users can print from most digital camera cards, CDs, and even wireless camera phones. A print scanner is included to make prints from your customers photos. They'll get their photos in seconds in a variety of sizes from wallet to 8x10s and save those photos to a Kodak Picture CD.

There's no waiting for a wet lab with the KODAK Picture Maker. Prints are delivered in seconds. No plumbing or chemicals are required and maintenance is quick and easy. Hurry, this may be your only chance to get Kodak Picture Makers at these prices!
